SILK DUVETS, SILK COMFORTERS

Silk Duvets, Silk Comforters

Silk comforters and Silk Duvets are the ultimate in sleep luxury! Our (Hangzhou Silkworkshop) Silk Comforters (duvets) are filled with 100% silk floss and cased with high threadcount pure cotton or pure silk fabric. Using ancient Chinese techniques of layering threads by hand in a criss-cross pattern to create silk floss, we have taken the finest quality mulberry silk to create luxuriously light, hand-made duvets. Superbly soft and lightweight, they contour to every part of your body like a second skin.

Silk is not only the ultimate in luxury but also contains amazing qualities not found in goose down or wool duvets.

Silk Bedding Catalogue

Silk is a natural insulator: Depending on the temperature, silk either draws heat away from the body or traps in the warmth. In the winter the large fibres reduce heat loss from the body, but in the summer the silk fleece sheds surplus heat by wicking away moisture from your body, keeping you cool and comfortable. This also means that one duvet will satisfy 2 sleepers with different needs of warmth.

Silk is naturally hypoallergenic: It is resistant to dust and house mites, mildew, mould and rot that attacks other fibres. Sufferers of asthma, blocked sinuses or other hay fever symptoms can find relief in silk bedding as well as those with allergies to down or synthetic material.

Silk is composed of 18 amino acids: The same amino acids that are found in our own bodies. Medical studies show that this can help blood circulation and the digestion system during sleep. It also helps to reduce the discomfort of itchy skin and aids in preventing vascular sclerosis.

Silk comforters are also suited to children: Their lightweight nature and breathable qualities ensure a regulated even sleep temperature.

Silk Bedding Catalogue

Please note - Silk Comforters and Silk Duvets are the same thing.

Silk duvets provide the same warmth as down comfsorters.

They are comfortable all year round due to their insulating properties.

Our silk duvets (comforters) are manufactured in Hangzhou China under strict quality control, ensuring that the Grade A mulberry silk filling is of the finest quality. The silk threads are teased out to the size of the duvet and layered multiple times to create a thick floss. Detailed stitching ensures the silk filling is held well in place, eliminating any cold spots, and it will remain like this for its entire lifetime. The duvet comes equipped with its own zipper so you can open it up to see the silk fleece first hand.

Silk Bedding Catalogue

Feel the difference yourself! Once you have experienced our silk duvets, you will not want to sleep under any other cover again.

Detailed Description

Care and Cleaning Instructions

A good silk duvet/comforter can last a long time if proper care is taken.

- Always use a removable cover to protect the inner from dirt and stains.
- The silk duvet/comforter cannot be washed. A frequent outdoor airing is required to allow the natural silk fiber to breath. Doing so will ensure that the moisture will be evaporated, making the silk comforter fluffy again. Each outdoor airing session should not exceed one hour.

Silk Bedding Catalogue

Should your duvet inner require deeper cleaning, please follow these steps:

- Isolate the soiled area only.
- Handwash with cold water and a very gentle\delicate washing agent. (A special silk washing agent is perfect)
- Do not use bleach or strong detergents.
- Rinse thoroughly and squeeze excess water by pressing the two sides together.

- Do not wring.
- Dry flat.
- Drycleaning uses chemicals which may damage the silk and is not recommended.
- Do not tumble dry or iron.

Do not shake duvet inner strongly as this may displace the hand layered silk floss.

Damage to your silk inner caused by incorrect care will void your warranty.

Silk Bedding Catalogue

SILK PILLOWS

To complement our duvets and to complete the silk sleeping experience, we offers several styles of luxury silk filled pillow in a range of sizes. They have the same healthy properties as our duvets, allowing you to breathe easily and to keep your head cool through the night. Our Chinese believe that resting your head on a silk pillow reduces wrinkles due to the amino acids contained in the silk. While we cannot prove this we do know that silk is naturally hypoallergenic making this pillow ideal for allergy sufferers.

Silk Bedding Catalogue

100% silk filled

Firm and dense they give good support to the head and neck. This superior silk pillow is filled with the finest quality, premium grade mulberry silk floss. The pillow is encased in high threadcount, pure cotton sateen and standard measures 70 x 50cm (27.6 x 19.7 inches).

50% or 20% silk filled

A **softer**, fuller pillow which retains shape easily and is filled with 50% silk and 50% polyester. The silk floss is wrapped around a polyester core to hold its loft. It is available in standard size (50x70cm).

| Size | Dimension | Filling | Net weigh |
|----------|---------------------------------|-------------------------|-----------|
| Standard | 27.6 x 19.7inches 70 x 50cms | 100% silk | 1500g |
| | | 50% silk, 50% polyester | 700g |
| | | 20% silk, 80% polyester | 700g |

SILK MATTRESS TOPPER(UNDERLAY)

As a result of customer requests and to complement our duvets we have introduced mattress toppers. These not only enhance your sleep by making the mattress softer it also creates an all round healthy sleeping experience as like our duvets, Hangzhou Silkworkshop toppers are naturally hypoallergenic. As with the duvets, the toppers help to regulate body temperature. The toppers are covered with high thread count cotton .

Silky Soft cushioning for a Beyond-the Cloud sleep sensation

Silk Density: 250gsm

Silk Bedding Catalogue

Special Features:

- superbly thermal and breathable, adjusting to one's body temperature to produce a perfect layer of gentle warmth and delicate comfort
- naturally hypoallergenic, providing an ultra luxurious and ideal alternative for those sensitive to wool, down & synthetics
- unique only to silk - the filling does not bunch nor shift
- cool in summer and warm in winter
- amino acids found in silk are believed for centuries to have many health promoting properties, soothing and protecting against joint pains, insomnia, eczema, skin problems and asthma
- repels mildew, mould and rot, its fibres never breakdown nor distegrate
- its weightlessness has traditionally appealed to people suffering from arthritis and muscular pain
- 100% natural & organic

The underlay silkfill is encased within a 100% cotton cover, which in turn is cased in a removable luxury protector casing made of 240 threadcount 100% cotton sateen fabric.

The casing features decorative piped edging, a silk embroidered logo, a hidden zipped opening for removal of inner silk pad, and wide elastic bands at the four corners which fit all mattresses.

SILK BLANKETS/ THROWS

Silky soft, Wonderfully light & Delicately warm

We are delighted to introduce our 100% silk blankets made from the finest mulberry silk. Our blankets are very light, incredibly soft and, as they are made from silk which is a breathable fibre, they help to regulate the body temperature, keeping you warm in the winter and cool in the summer. As with all our products our blankets are naturally hypoallergenic and as silk consists mainly of natural protein they are extremely kind to the skin. So it soothing for both children and grown-ups!

Silk Bedding Catalogue

Pile: 100% silk woven through 80% cotton/ 20% poly base for easy care and durability.

Trim: 100% silk satin.

Colours: Available in ivory, camel, pink, wheat, green, blue; the ivory and camel is the prevalent color.

Use & Care:

- Dry clean is recommended. Air regularly.
- Do not hand wash or machine wash your blanket as this will flatten the silk fill and reduce its natural benefits.
- To iron your blanket, always place a piece of cloth over it and iron on low heat.
- Store flat in a cool dry place.

Fringed Throws

Comfortable, casual and a necessary accessory for a favorite chair or sofa.

The supple texture feels heavenly next to your skin.

Silk Bedding Catalogue

SILK FABRICS & TERMS

Silk is an incredible natural product that can be made into many different fabric styles. Below are descriptions of the types of silk and satin used in our sheets, comforters, and duvets to help you choose which one is best for you.

Silk Floss

Silk floss is used to fill silk comforters. It is a natural 100% silk fiber. Our comforters are made only of long row mulberry silk floss. Each strand of long fiber mulberry silk can be thousands of yards long. This provides delicate layers of fill that do not bunch or shift. Mulberry floss is highly preferable to the wild “tussah” silk you may see in other silk comforters.

Silk Bedding Catalogue

Momme Weight

Because silk is such a fine fabric, it is generally measured by “momme weight” instead of thread count. Momme (pronounced “mummy”) is a Japanese unit of weight used to measure and describe silk fabrics. The higher the momme, the heavier the fabric.

For example, 8 momme silk is extremely light and would not be durable or heavy enough for use in sheets while 22 momme silk is quite heavy and would typically be used in products such as men’s suits.

Our silk bedding generally used 12 to 19 momme which is suitable for use in sheets, duvets, etc.

Charmeuse Silk

Charmeuse is the most widely recognized type of silk. It is shiny and very smooth, and drapes beautifully. Charmeuse silk is also known as Satin Silk. Our charmeuse silk sheets and duvets are a high quality 19 momme weight.

Silk Bedding Catalogue

Habotai Silk

Habotai silk is a fine, lightweight fabric. This fabric is smooth and only slightly shiny. Because it is lighter, it is less drapeable than heavier silks. It is perfect for use in summer or in warmer bedrooms. Our habotai silk sheets and duvets are lightweight and range from 12 to 16 momme.

Jacquard Silk

Jacquard silk has an intricate pattern woven into the fabric. It provides a beautiful combination of shiny and matte finishes perfect for duvet covers and other decorative items. Our jacquard silk items are medium weight.
